INDUSTRY OVERVIEW

Food Technology use for producing safe, high-quality food in environmentally sustainable ways with aim to advancing sustainable solutions in food production. Food technology is the application of food science to the selection, preservation, processing, packaging, distribution, and use of safe food. Green strategies are required for both crops and animal products throughout all post-harvest stages of food production and research in biotechnology and bioengineering aimed at increasing food production sustainably. Food Technology should focus on either applied or fundamental science and cover the development and optimisation of technologies aimed at improving post-harvest supply-chain of food.

India's food processing sector is one of the largest in the world and its output is expected to reach \$ 800 Bn by 2030. It lies at the heart of the Government of India's Make in India initiative and resonates with Prime Minister Modi's call for "Vocal for Local and Local for Global. The food processing and hospitality industry in India is diverse includes a wide range of products and innovations. Food processing machinery transforms raw ingredients into safe, palatable, and long-lasting food products by performing essential tasks like cleaning, cutting, mixing, cooking, freezing, and packaging, thereby enhancing efficiency, consistency, and shelf life in large-scale production. These machines are critical for meeting food safety and quality standards, enabling the global exchange of food products by preserving them through various processes and facilitating diverse forms of food from raw materials to finished goods.

In an era of rapid technological advancements, the impact of modern technology on various industries cannot be understated. The food production industry has witnessed a significant transformation with the integration of cutting-edge technologies. These innovations have revolutionized the way we grow, process, and manufacture food, leading to increased efficiency, improved sustainability, and enhanced product quality. Advancements in technology have propelled the food production industry into new frontiers, enabling us to meet the ever-growing global demand for safe, nutritious, and sustainable food. From precision agriculture to artificial intelligence in quality control, each technology plays a vital role in enhancing productivity, reducing waste, and ensuring food safety.

ABOUT F&T INDIA 2026

F & T India 2026 (Food and Technology Show) is a B2B business platform to explore the business opportunity within the Food , Beverage and dairy industry, This event will be the best and latest in food processing Machinery, Products, and technology from India and abroad and Exhibitors can showcase their latest Food products , technology , innovation , food processing machinery under one roof. in India. This is the ultimate platform to discover the latest trends, innovations, and solutions driving the future of the food sector.

F & T India 2026 will be organized with the main aim to promoting the growth and development of food processing industry in India. The event will offer so many opportunities for networking and business for the participants from the food industry. The Show will showcase the latest advancements in food production technology, eco-friendly packaging solutions, automation systems, and emerging trends shaping the future of the food industry.

F & T India 2026 is an important trade show for food and beverage industry to bringing together manufacturers, stakeholders, industry experts, startups, industry leaders, decision-makers, potential partners, traders, technologist, innovators and India & global buyers for new business ventures, collaboration making it a significant platform for business partnerships worldwide. The Show will be bringing together new technology, state-of-the-art equipment, materials and services countrywide and accelerating technological advancements in the Indian food processing industry.

Exhibitors Profile

- Food, Dairy and Beverage Products
- Bakery Products & Ingredients
- Kitchen Equipment's and Technology
- Food Processing Machinery, Equipment's and Technologies
- Food Plant Automation Technology
- Food Packaging Materials and Machines
- Food Safety & Quality Management
- Printing, Coding, Marking, Stamping, Labelling Machines
- Food Testing Laboratories, Measuring & Testing Equipment's
- Automation, Digitalisation, Artificial intelligence and IOT Solutions
- Food Waste Recycling Machine
- Govt. Institutions
- Trade promotion Bodies
- Trade Media.

Visitors Profile

- Food & Beverage Products Manufacturers
- Food Processing Machinery Manufacturers
- Wholesaler, Distributors Dealers and Retailers
- Food startups and Investors
- Food Process Mills Owners
- Purchase and Process Professionals
- Hyper Markets
- Researchers and Consultants
- Co-operative Federation
- Exporters, Buying Agencies and Importers
- Technology Developers
- Hotels and Restaurants
- Central and State Government Agencies
- Trade Association
- General and Trade media

Benefits of Participation

- Meet high quality prospects and decision Makers
- Brand Building opportunity among industry
- Direct interaction with industry suppliers, buyers and distributors
- Access to an extensive network of professionals.
- Connect with international industry participants.
- Showcase your latest technologies, products and services
- New import & export opportunity
- Network with Industry professionals
- A platform to engage with a diverse, international audience.
- Interactive sessions with potential clients and partners.
- A platform to launch new products
- Explore Joint Ventures & partnerships

Our Forthcoming EVENTS

04-05-06 JUNE, 2026 | India Expo Centre
Greater Noida, U.P., India

04-06 JUNE, 2026

India Expo Centre
Greater Noida, U.P., India

07-08-09 JULY 2026

Bombay Exhibition Centre, Mumbai, India

23-24-25 JULY, 2026

India Expo Centre, Greater Noida, U.P., India

20-21-22 AUGUST, 2026

Bharat Mandapam, Pragati Maidan, New Delhi, India

01-02-03 SEPTEMBER, 2026

India Expo Centre, Greater Noida, U.P., India

JANUARY 2027

World Trade Centre, Mumbai,
Maharashtra, India

JANUARY 2027
